

GEN AI Bootcamp

Day 1 Homework — Multimodal AI

Problem Statement

Imagine you are building an AI system for an e-commerce platform like Amazon or Flipkart.

The system should be able to **understand a product using image**.

Your Task

Think through and write answers to the following questions:

1. Inputs

- Product image
-

2. Outputs

- Product category
 - Product description
-

3. Model Selection

- What kind of model can understand both image and text?
 - Hint: Think about multimodal models like CLIP, BLIP, etc.
-

4. System Design (High-Level)

- How will your system work step-by-step?
-

5. Evaluation

- How will you know if your model is good?

Think about:

- Accuracy
 - Quality of generated descriptions
-

6. Business Value

- Why is this useful?
-

Submission Format

- Write your answers in:
 - Google Doc / Notion / PDF
 - Keep it simple (1–2 pages max)
 - Diagrams are highly encouraged (even rough sketches)
-

Bonus (Optional)

- Find 1 real-world company using multimodal AI
 - Explain how they use it (2–3 lines)
-

Tip

Don't worry about being perfect. Focus on **clear thinking over correctness**.
